

CVS Health and Walmart

What You Need to Know

- ✓ **Walmart will remain in the CVS Caremark commercial and managed Medicaid networks**
- ✓ **New agreement accomplishes our top priority of helping lower pharmacy costs**
- ✓ **Walmart continues to participate in CVS Caremark Medicare Part D networks**

As your PBM, our top priority is to help you and your members lower pharmacy costs. The new agreement accomplishes our top priority and enables Walmart to continue participating in our commercial and managed Medicaid pharmacy networks, offers enhanced network stability, and prevents disruption for you and your members.

When making strategic decisions such as network coverage, we put the interests of our clients and their plan members at the forefront. With the continuing participation of Walmart, the CVS Caremark national pharmacy network will have nearly 68,000 participating pharmacies for members to choose from, including independently-owned, community-based pharmacies, other local pharmacies in grocery stores and mass merchants, as well as regional and national chains.

What this means for members:

- ✓ Walmart continues to be included in the list of pharmacies covered under CVS Caremark commercial and managed Medicaid retail pharmacy networks
- ✓ Members can choose to continue to fill their prescriptions at a Walmart pharmacy
- ✓ Walmart pharmacies also remain in CVS Caremark Medicare Part D networks
